Install the latest SYNC software updates in your vehicle. To get started, download the software updates from the following link: [ford.com/syncupdates](#). For more information, visit [ford.com/syncupdates](#).

**11 STEPS**

**Before you start**

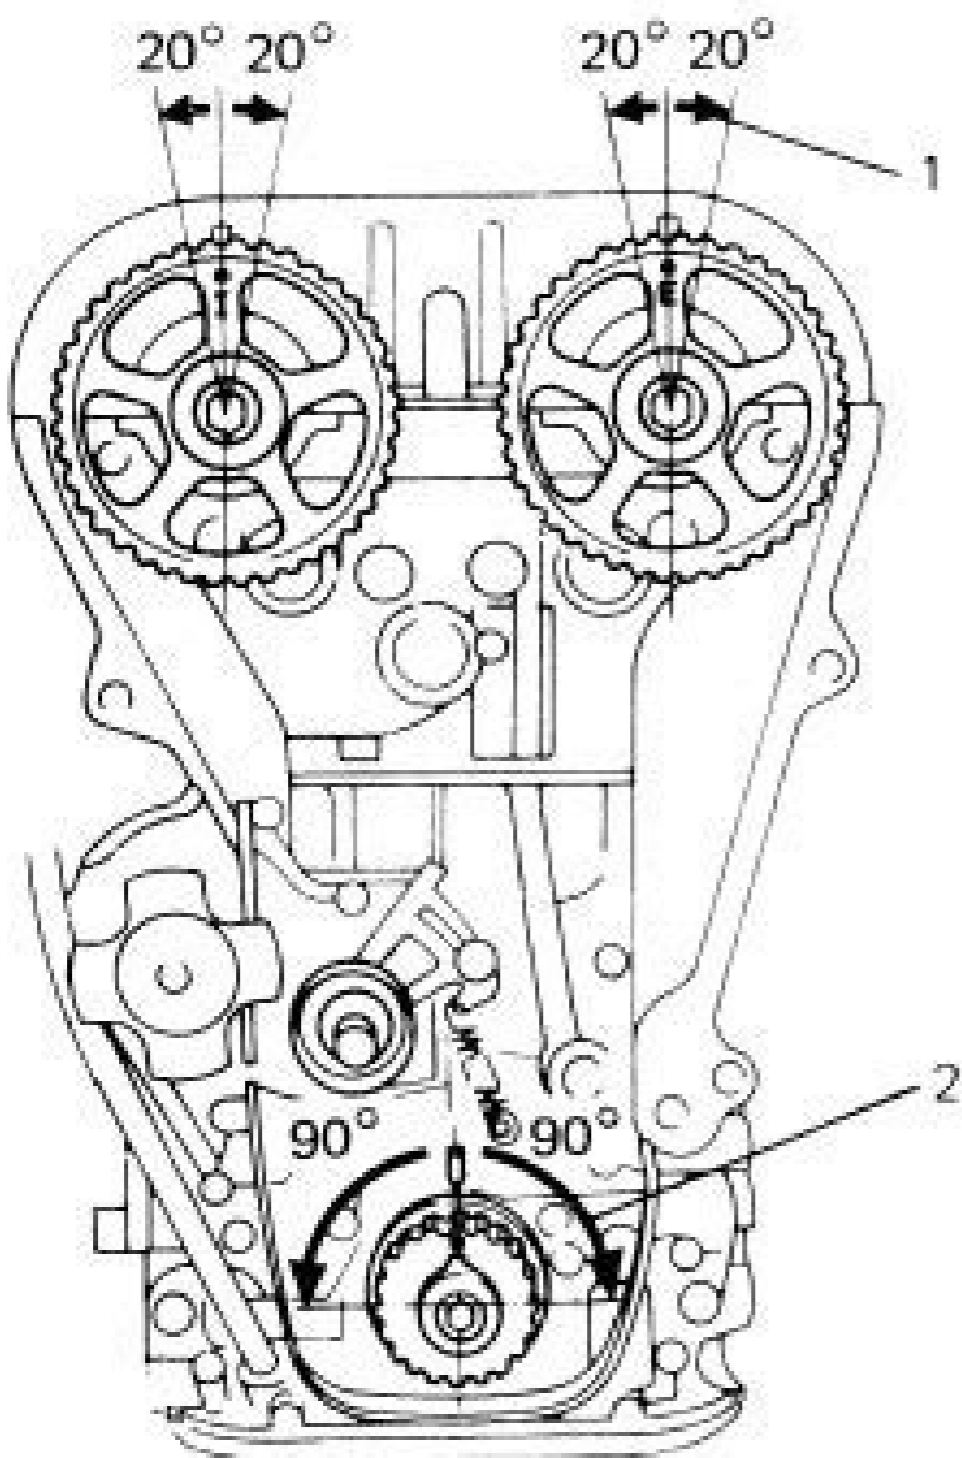

Make sure your vehicle is parked in a safe location. Turn off the engine and the radio. Disconnect the negative (-) terminal of the battery. Turn off the ignition and the engine. Turn off the power windows and the power locks. Turn off the power windows and the power locks. Turn off the power windows and the power locks.

**1** Turn on USB drive with the software updates in your vehicle. Turn on your vehicle and hold for 30 seconds.

**2** Plug the USB drive in your vehicle's USB port.

**CAUTION:**

- After timing belt is removed, never turn intake camshaft, exhaust camshaft and crankshaft independently more than such an extent as shown below. If turned, interference may occur between piston and valves and valves themselves, and parts related to piston and valves may be damaged.

1. Camshafts (IN & EX) allowable turning range . . . . .  
By punch mark at "I" or "E", within 20° from mark on cylinder head cover on both right and left
2. Crankshaft allowable turning range . . . . .  
By key on crankshaft, within 90° from mark on oil pump case on both right and left

*Fig. 6A-32 Allowable Turning Range of Camshafts and Crankshaft*

- Never bend timing belt.
